

On January 31 at 1pm ET, hear from our experts as they evaluate the significance of the new BPCI Advanced model on quality, care and the accelerated push toward value. The webinar will hone in on the new BPCI initiative, lessons learned from the original program and clinical and operational elements for success under the new announcement.

We will examine success factors under BPCI 1.0 and what health systems need to know about BPCI Advanced to support higher quality, more cost-effective care across the continuum. Learn what steps health care leaders can take to drive savings opportunities, improve outcomes and lay the foundation for the continued trend toward value-based care.—Missed the webinar? Watch it on-demand today.
