Last month, Kim Hodge, Director of Clinical Performance, West Coast BPCI, addressed a standing room on the "Skills, Technologies, and Attributes Managers Need to Succeed in Value-based Care."

In her presentation, she focused on the Porter/Teisberg definition of VBC, defined as "health outcomes achieved per dollar spent." $\frac{1}{2} \int_{\mathbb{R}^{n}} \frac{1}{2} \int_{\mathbb{R}^{n}} \frac$
