

In the coming weeks, CMS will roll out its voluntary, next-generation Bundled Payments for Care Improvement program. Clay Richards, CEO of naviHealth, expects strong health system in the program, which CMS says will qualify as a MACRA Advanced Alternative Payment Model.

naviHealth, which helps payers and providers manage post-acute care, isn't alone in being bullish on bundles; a McKesson report issued last year predicted that bundles will grow faster than capitation arrangements in the years ahead.
