

Brentwood care convener naviHealth is booming and hiring — and just getting started.

The seven-year-old company's business was booming before BPCI Advanced was announced early this year — it already manages an estimated 40,000 annual episodes under the original BCPI — and executives plan to expand to 20 new markets over the next 12 months. Some of that will be as a BPCI Advanced convener, some will be for the growing number of members it helps manage through insurance plans like Medicare Advantage.
